# **Mission Statement**

Our mission is lead the way in finding a cure for TANGO2 related disease. We will do this by helping to fund, coordinate and guide scientific research that leads to a better understanding of how TANGO2 mutations affect people at the most basic cellular and biochemical pathway levels.

It is our hope that by helping to fund, coordinate and guide the efforts of researchers, scientists and doctors, we can rapidly accelerate the understanding around TANGO2 and pave the way to future therapies and positive outcomes for loved ones.

Fund scientific research that leads to finding a cure.

Increase studies that will lead to managing life-threatening symptoms.

Raise awareness for accurate diagnosis of children with TANGO2 disease.

Provide support for families with children living with TANGO2 disease.
