

Monthly Updates

Dear Sample Firstname,

Our team is excited to share the TANGO2 Research Foundation's 2025 Annual Report—one we worked hard to thoughtfully create and are proud to present to you! This year's annual report reflects not only what we accomplished together, but how significantly the TANGO2 Research Foundation has grown in both reach and impact.

In 2025, the TANGO2 Research Foundation funded critical research initiatives, strengthened international collaboration among clinicians and scientists, and expanded meaningful support for families navigating this diagnosis. Each milestone in this report represents countless hours of work, generosity, and belief in what is possible.

We scaled our organization in meaningful ways—welcoming more volunteers, expanding our international network of clinicians and researchers, connecting with global affiliate organizations, and growing fundraising and donor support across multiple countries. These advancements enabled us to accelerate critical research, strengthen cross-border collaboration, and expand awareness, education, and resources for families navigating TANGO2 deficiency disorder (TDD).

As you read this report, we hope you celebrate the progress we've made and the lives we've touched together. We know there is still so much more to do—and with your continued partnership, we are confident that the future for individuals living with TDD will be brighter, stronger, and filled with hope.

On behalf of the TANGO2 Research Foundation team, our co-founders Mike & Kasha Morris, and the Board of Directors, thank you for believing in this mission and for helping transform rare disease into real progress.

With gratitude and determination,

**Ann Geffen, JD, MA**

Executive Director

**Deena Chisholm, MPH, CHES**

Research Director

**Destiny Braden**

Development & Operations Manager
